

Student: Alzahra Qasem
Grade: 12th grade
Teacher: Mrs. Quigley Tracey
School: K12- Insight School of Michigan

K12 Insight School of Michigan

As the oldest child, I had to be more responsible and take full responsibility for my actions. My dad had the chance to go to school but not my mother. My dad went to Fordson High School and dropped out of his second year. My mother, however, didn't have the chance to go to school because she stayed back home until she came to the U.S. I am very thankful for the opportunities I have; other kids wish to be able to read and go to school. I went to the same High School my dad went to for 3 years and didn't learn that much and my grades weren't as pleasing. My parents wanted me to change schools and see if my grades will improve. I didn't feel comfortable going to school anymore. Teachers didn't care about students anymore and never taught us properly. Our class percentage always went down, and we always used to fail tests. The highest test score was 67%.

I was watching YouTube and I saw an ad about K12 Insight School of Michigan and that caught my eyes. Being homeschooled was good for students who get bullied or have health issues. So, I thought about taking the risk of being homeschooled and I talked to my parents about it and they said I will start my senior year in Insight School of Michigan. September 9, 2019 school started, and I was so excited. I didn't have to worry about waking up late for school anymore it was all at home and much easier. My first week was amazing. The staff and teachers are the nicest people I've ever met, and I had great learning experiences. K12 really changed my life and my grades were A's and B's. My parents were really proud and decided to let my sisters also become homeschooled.

K12 offers all the supplies you need and make sure they're always there to support you at any time. K12 offers over hundreds of classes for students and will make sure you never fail a class, always attending sessions, and ready to learn new things. As a student, I really think I changed a lot. I became a much better person and more responsible. Surprisingly I even started reading books more. My school offers amazing clubs such as world adventures, art, music, cooking, DIY maker and many more.

One of my amazing teachers is Mrs. Tracey Quigley, she is so amazing and makes sure we get our work done on time. K12 teachers always send emails and texts to parents to inform them that their child didn't attend class, on the other hand, the public school won't do that or even bother worry about you getting your work done. Mrs. Tracey makes learning so much fun and gives us good activities to work on. We work

together as a family and help each other out. I'm really blessed with this amazing school and staff. I'm so grateful to have the ability to go to school and become successful.

My school cares so much about our graduation and success. They have amazing school prides shirts and many more creative things. Teachers wake up early just like other staff and make students mornings blessed. They do everything they can to make us enjoy learning, do good in tests, and achieve our goals. Teachers helped us sign up for FAFSA and enter college scholarships and a lot of opportunities for our upcoming years as college students. My school is the best school and will always be the best. Not being away from home and studying at home is great and much easier. Suppose if you're working you can tell your teacher you'll be working and they will have a class recording for you to listen to when you have time after that you'll be caught up with your grades. I'm glad I took the risk it was so worth it. I can't wait to graduate.
